October- December 2020

#### Massachusetts Institute of Technology, Cambridge, Massachusetts

### RESEARCH EXPERIENCE

---

#### *Co-Author - “The Importance of Vintners Quality Alliance appellation designations in the British Columbia Wine Market”*

Author, **Prof. Eric Stuen**, Professor of Economics at University of Idaho

Co Author, **Connor Sievers**

*Analyst – Vandal Impact Center*

*Co-Author, Prof. Steven Peterson, Clinical Professor of Economics at University of Idaho*

*“Impact Assessment on Regional Economy of Palouse with enrollment of International Student”*

### WORK EXPERIENCE

---

#### Policy Incubator, The London School of Economics- *Policy Analyst*

September 2025- April 2026

#### European Business Dynamism, DGEFCIN Policy Challenge 2025/26

- Researched and analyzed the decline in business dynamism across the EU, drawing on quantitative and qualitative data alongside academic and policy literature.
- Evaluated key factors impeding business dynamism, including funding gaps, innovation incentives, and managerial weaknesses. Assessed the impact of business dynamism on productivity, innovation, and economic resilience in the European Union, benchmarking against US and China.
- Developed actionable recommendations to foster business dynamism, including strategies for resource reallocation and support for dual-use (defense/civilian) technologies.
- Provided policy advice on EU-level coordination with national administrations and analyzed synergies between military spending and business innovation.

#### Vandal Impact Center- University of Idaho – *Economic Analyst*

January 2025- May 2025

#### Regional Economic Impact Assessment, Palouse 2025

- Conducted a comprehensive economic impact study on international student enrollment at the University of Idaho and Washington State University, quantifying direct, indirect, and induced effects using advanced input-output modeling (IMPLAN).
- Analyzed key economic indicators, revealing international students generate nearly \$73 million in annual regional output and sustain over 560 jobs, spanning education, housing, retail, healthcare, and transportation sectors.
- Assessed policy risks related to U.S. immigration regulation, providing actionable recommendations for strategic enrollment planning, immigration advocacy, and institutional outreach to safeguard local economic stability.
- Presented findings on fiscal contributions, demonstrating that international student activity leads to \$5.8 million in state and local taxes, supporting public services and regional government.
- Synthesized and communicated data-driven insights for diverse stakeholders, informing regional development strategies and higher education policy.

**Davis Student Investment Group, University of Idaho- Sector Coordinator/ Analyst, Portfolio Manager** January 2023- May 2025

- Performed financial analysis from reports including news, industry ratings & managed stocks, bonds, & other equities in CBE's portfolio that *increased value of portfolio* by 8% & cash holdings by 58% during 2023 recession by proficient asset management decisions.
- Researched financial markets, tracked specific market sectors & strategized to pitch investment ideas relevant of investment analysis.
- Developed a strong foundation in qualitative analysis by various instruments using fundamental analysis on KPI & managing risk.

**The College of Business & Economics, University of Idaho - Undergraduate Research Assistant** January 2025- April 2025

- Supported an empirical research project on the role of Vintners Quality Alliance (VQA) appellation designations and their impact on wine prices in the British Columbia (BC) wine market.
- Collected, cleaned, and compiled large datasets from Wine-Searcher.com, including variables such as retail prices, grape varieties, critic ratings, winery size, and appellation distinctions.
- Conducted regression analysis using hedonic modeling to assess how geographic origin, critic scores, and wine variety influence market pricing; contributed to designing and interpreting statistical models.
- Synthesized findings to evaluate whether BC wine regions have established price premiums like Bordeaux or Napa, providing insights for regional economic development and policy recommendations.
- Assisted in preparing research reports and visual materials for presentation at the Undergraduate Research Symposium and for academic journal submission.

**Points Consulting- Economic Data Analyst Intern** May 2024- August 2024

- Visualized heatmap for CREC Church Expansion using PowerBi conducting a comprehensive, economic and statistical modeling analysis to identify potential church plant locations across the United States.
- Conducted advanced economic modeling and regression analysis using R-Studio to support client projects, including market feasibility studies, housing needs assessments, and strategic planning for community development.
- Led data collection and rigorous cleaning for multiple real estate, rental, and economic datasets (sources incl. U.S. Census Bureau, Zillow, Airbnb/VRBO), ensuring accuracy for impact analysis and forecasting.
- Delivered actionable insights by applying time-series analysis, ARIMA modeling, and statistical tests to identify drivers and forecast trends in rent, housing cost, and market supply.
- Quantified short-term rentals' effect on long-term housing availability, using comparative and geospatial analysis to inform client recommendations. Presented findings in professional reports and client meetings, translating complex data into clear visualizations and strategic implications for investment, regulatory, and policy decisions.
- Collaborated with senior consultants on quality assurance, leveraging industry-best data sources (e.g., Headlight Data, ACS, BLS) to verify and benchmark analysis outcomes.

**The Office of Information Technology, University of Idaho- Customer Support Analyst** November 2023-August 2025

- Assisted reclassify incoming support requests into established categories & ensure ticket management data standards are met.
- Analyzed, classified the support requests sent to OIT, created reports with TeamDyanamix & interpreted data for quantitative analysis.
- Ran reports, analyzed data with visualization using PowerBi Software & recommended making problem solving decisions.

**Strategic Enrollment Management, University of Idaho- Student Communications Specialist** November 2023-August 2025

- Assisted in the communication and promotion of major university events, including Avanza, Meet the Vandals, Envision, Sneak Peek, and UIIdaho Bound.
- Engaged with prospective students and families through diverse channels: phone calls, emails, texts, chat, and social media outreach. Developed and implemented independent remote working strategies to design a resource database for prospective students.
- Shared campus experiences and student perspectives to support recruitment and community-building efforts. Managed and updated inquiry cards ("Tell Me More") to facilitate information flow and support admissions.
- Contributed to team projects, providing collaboration and support to colleagues for enhanced outreach results. Supported social media strategy and content management to expand university visibility and engagement.

**ESPN+ - Production/Broadcast Assistant** September 2022 November 2023

- Assisted with precise camera placement and operation tailored to ESPN college sports broadcasts, ensuring optimal angles and dynamic coverage.
- Maintained proper framing and followed live action adeptly to enhance visual storytelling and viewer experience. Managed audio capture and operation for clear, balanced sound during live sports events.
- Supported the replay system through recording, playback management, and coordination with production teams. Operated and programmed the broadcast switcher to transition seamlessly between camera feeds and video sources.
- Created, operated, and implemented live graphics to provide real-time statistics, scores, and information during broadcasts. Collaborated in producing engaging storylines and talking points to enrich commentary and audience engagement during live sports coverage.

**Imagine Nepal- Production Manager for Team Kishor Kayastha** January 2021 - June 2021

- Led a multidisciplinary production team during a 30-day nationwide travel and filming project, overseeing logistics, scheduling, and on-site coordination.
- Managed end-to-end project operations including route planning, equipment management, and post-production workflows.

- Acted as the communication correspondent with Kantipur and Uptrendly teams, ensuring clear coordination among stakeholders, local governments, and regional representatives.
- Conducted location scouting, research, and reiki planning to optimize shoot execution and narrative goals. Facilitated stakeholder engagement, official permissions, and local collaborations to support smooth production in diverse terrains.
